Contents Volume 109, 2002

Research papers

Water repellency in sandy luvisols under different forest transformation stages in northeast Germany
U. Buczko, O. Bens, H. Fischer and R.F. Hüttl 1

Transport of soil and nutrients by wind in bush fallow land and traditionally managed cultivated fields in the Sahel
C.L. Bielders, J.-L. Rajot and M. Amadou 19

From pedotransfer functions to soil inference systems
A.B. McBratney, B. Minasny, S.R. Cattle and R.W. Vervoort 41

Fragmentation fractal dimensions of Vertisol samples: influence of sieving time and soil pretreatment
H. Millan, M. González-Posada and R.M. Benito 75

Influence of the controlled dual ectomycorrhizal and rhizobal symbiosis on the growth of *Acacia mangium* provenances, the indigenous symbiotic microflora and the structure of plant parasitic nematode communities
R. Duponnois, H. Founoune and D. Lesueur 85

Imogolite related to podzolization processes in Danish podzols
L. Mossin, M. Mortensen and P. Nørnberg 103

Environmental correlation of three-dimensional soil spatial variability: a comparison of three adaptive techniques
S.J. Park and P.L.G. Vlek 117

Geographic and vertical patterns of stable carbon isotopes in tropical rain forest soils of Costa Rica
J.S. Powers and W.H. Schlesinger 141

Book reviews 161

Research papers

Relationships among soil carbon distributions and biophysical factors at nested spatial scales in rain forests of northeastern Costa Rica
J.S. Powers and W.H. Schlesinger 165

Review of XRD-based quantitative analyses of clay minerals in soils: the suitability of mineral intensity factors
M. Kahle, M. Kleber and R. Jahn 191

Pedogenesis in disturbed alpine soils (NW Italy)
R. Scalenghe, E. Bonifacio, L. Celi, F.C. Ugolini and E. Zanini 207

Effect of extreme acid and alkali treatment on soil variable charge
G. Jozefaciuk, A. Muranyi and T. Alekseeva 225

Multiple tracing of fast solute transport in a drained grassland soil
C. Stamm, R. Sermet, J. Leuenberger, H. Wunderli, H. Wydler, H. Flühler and M. Gehre 245

FuN-Balance: a fuzzy balance approach for the calculation of nitrate leaching with incorporation of data imprecision
M. Mertens and B. Huwe 269

Comment on "Modeling soil variation: past, present and future" by G.B.M. Heuvelink and R. Webster
P. Baveye 289
Reply to Comment on "Modelling soil variation: past, present, and future", by Philippe Baveye
G.B.M. Heuvelink and R. Webster 295
